Average Implementation Time – 60-120 Days

Industry-specific Customization

With 23+ years of experience delivering cutting-edge ERP and CRM solutions, we are market leaders in helping businesses seamlessly manage their operations. With 1500+ customers worldwide, we are a trusted name in delivering cost-effective and efficient solutions. We understand your niche requirements and tailor-make the solution for you! Our enhancements cover

Configuring workflows

Custom reports or dashboards

App Integrations

Developing additional functionalities

Application Integrations

To advance the functionalities of Acumatica, integrate it with industry-specific apps that will drive niche processes and help business operations run harmoniously.

Native Solution: Acumatica – Checkbook Integration

This native solution built on the Acumatica framework helps you streamline digital payments. This secure solution automates payments at the click of a button, making it quick and seamless.

Here are some of our top-performing integrations powered by GUMU™

GUMU™ for Acumatica – Magento Integration

GUMU™ for Acumatica – Shopify Integration

GUMU™ for Dynamics 365 CRM – Acumatica Integration

Migration

If you are new to Acumatica and want to safely migrate from your legacy system, our Champion GUMU™ is here to your rescue. This one-click SaaS platform securely migrates your data in a flash. As a cloud software, your data remains secure as it is not saved on any external server but just migrated from Software A to B.

Support - Application Management Services

We offer in-moment and on-the-go continuous assistance for any issues or challenges to help you optimize your processes.

Support and Issue Resolution

Our experienced team is available to assist you in resolving system errors, providing guidance, and troubleshooting any issues you may face. We aim to ensure that you can overcome any technical hurdles and optimize the performance of your system.

User Training and Documentation

As a complete solution provider, we offer best-in-class user training and guidance to utilize the ERP fully. These sessions include the most basic and advanced functionalities to efficiently run your processes.

System Maintenance and Monitoring

As a part of our AMS support, we regularly monitor the performance of the ERP to ensure stability. We maintain databases, check for system updates, manage patches, and proactively monitor system health.

Communication Channels

- Ticketing System
