All About GUMU™ Sage Intacct - Blackline Integration

A State-of-art ERP-SFTP Integration

Greytrix, through GUMU™, brings you a powerful integration of Sage Intacct, a leading cloud-based Financial Management and Accounting software, with Blackline, award-winning finance control and automation system. With the best-in-class design and robust configuration, it enables real-time and quick access.

BENEFITS

Enjoy Easy Implementation

Sage Intacct automates data ensuring real-time visibility of financial data and high-risk items throughout the period. The integration provides dashboards, configurable reports and easily embedded analytics to close client processes.

Explore Seamless Data Flow

The integration enables seamless data flow between the two systems. Data is imported automatically, matched in minutes, and account reconciliations are auto-certified, reducing time in journal preparation.

Enable Multi-tenancy

The records are present in a single import file, minimizing the risk of data entry errors in a multi-company environment.

Enhance Employee Productivity

Automation enables standardized processes, rule enforcements, maintains data consistency and streamlines client communications. Additionally, each step is trackable with a complete audit trail and configurable risk rules, making it easy to check any irregular activity.

Blackline SFTP helps integrate Systems in the most secure, fast and cost-effective way. One can integrate CSV, Excel, Text, XML from Sage Intacct to Export Entities like –

Account Numbers | Journals | Departments | Locations | Classes | Customers

About Greytrix

Greytrix is one of the oldest and globally recognized partners of Sage, providing world-class solutions for ERP and CRM systems. Greytrix is also the architect of GUMU™, a system integrator providing hassle-free integrations for ERP systems with CRM systems, cloud storage systems and third-party apps
