Preview Data Before Import

It gives you control over the data you import by identifying and resolving data errors beforehand and also minimizing the risks of inaccurate information. Improve your data accuracy by thoroughly reviewing your ERP data before importing it into Salesforce CRM.

Authorization Control

Our integration ensures your system's highest level of security with GUMU™ Security Matrix. It allows administrators to define user permissions precisely, granting access only to authorized individuals. They can also customize and monitor content accessibility effectively for different users.

Real-time Inquiries with Flexibility to Configure

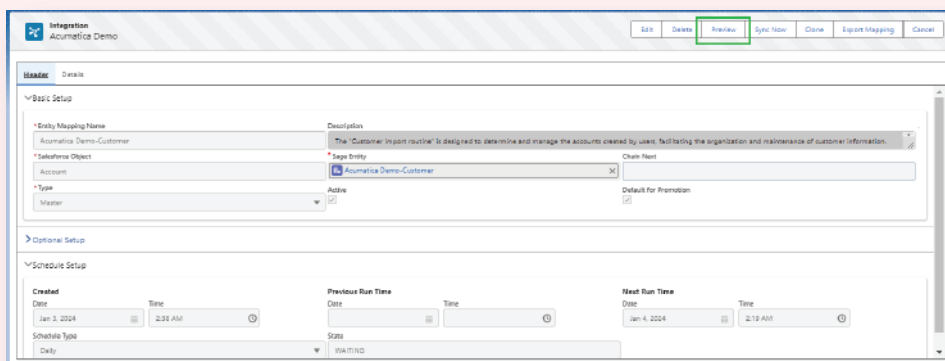

With Acumatica Salesforce CRM integration, add custom fields and easily modify existing inquiries by associating SF and Acumatica data. It also eliminates additional data storage charges in SF by fetching related information from Acumatica and avoiding data duplication. Also, you can optimize storage resources while maintaining a seamless flow.

Easy Entity Synchronization

Experience the power of flawless entity sync and get the latest insights with real-time data sync from Salesforce and Acumatica. GUMU™ is our in-house integrator offering two-sync and one-way on-demand sync. You can easily access sales quotes, invoices, order details, including addresses and history, and customer details for all entities.

Exclusive Entity Add-ons

At Greytrix, we offer a range of additional add-ons to expand your Salesforce capabilities, like Vendor-related add-ons Vendor Masters, Vendor Contacts, Purchase Addresses, and Billing Addresses. Also, we've add-ons for AR Sales Invoice Promotion and Purchase Order Promotion.

Standard Salesforce Opportunity

Elevate your sales process with our seamless Acumatica ERP record transformation feature, which can be triggered manually or automatically when your quote reaches a specific status, such as 'closed won.' It enables effortless conversion of quotes or any sales document into orders or other relevant records within your ERP system.

Reports & Dashboards

Simplify data management, predictive analysis, and insightful recommendations with Einstein Analytics in Salesforce CRM. Create interactive dashboards, generate dynamic reports, and present essential business metrics in an intuitive and user-friendly way. Stay agile and drive success with quick updates and timely information for stakeholders.
