Process Shipping

Process your shipment by selecting a delivery service from the available list. It will help generate tracking IDs and labels for the respective packages. Freight charges are automatically added, including third-party fees, and prepaid payment terms. A confirmation mail of dispatch is sent to the customer with the tracking ID once the shipment is processed.

Return Shipments

This shipping application also features a customer return screen where one can select all information required to process a return shipment. One can easily process a return shipment just like the forward shipment process from getting quote to printing labels.

Return Information

Master tracking number <input type="text" value="1ZXXXXXXXXXXXXXXXXXX"/>	Carrier <input type="text" value="AO202"/>
Return label <input type="text" value="Print return label"/>	SHIPNAV - Linhas de Angola
Freight Charge <input type="text" value="26.7500"/>	Carrier Type <input type="text" value="UPS"/>
	Service Name <input type="text" value="UPS Ground"/>
	Freight terms <input checked="" type="radio"/> Prepaid <input type="radio"/> Collect <input type="radio"/> Third Party

Label Printing

Print labels once the shipment has been processed for a particular carrier.

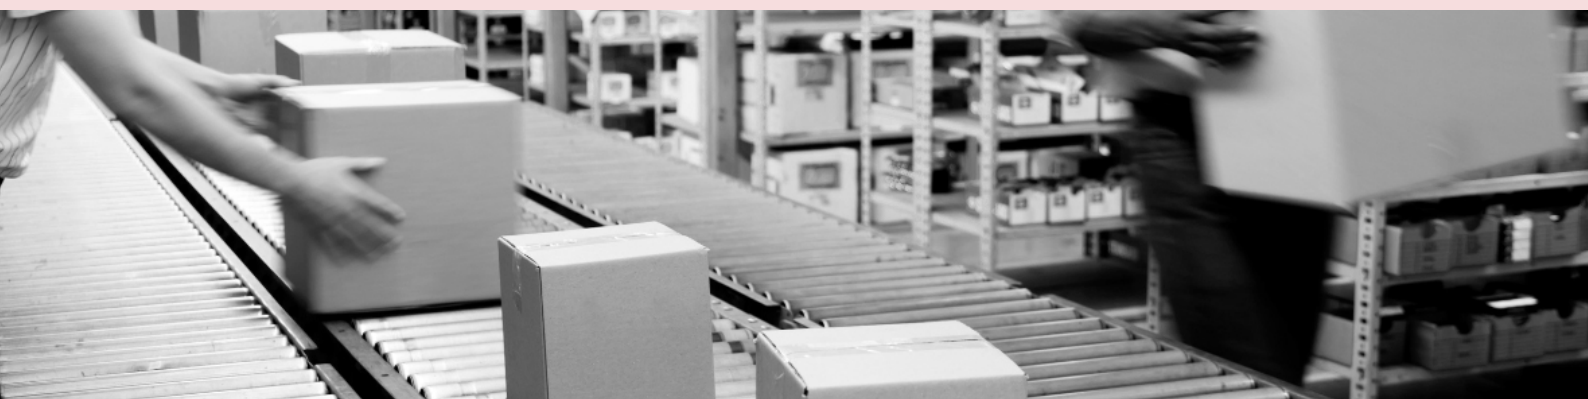

Cancel Shipment

In instances of any shipment cancelation after processing, use this functionality to cancel the shipments within the void period.

Address Validation

Validate both billing and shipping addresses through this functionality.

The shipping solution allows you to focus on other operations while shipping workflows run hassle-free. So, get the solution for your business today and wave goodbye to any shipping woes!
