

GUMU™ ShipEazy for Sage X3

An all-new automated solution for hassle-free shipping processes

Look no further—your Sage X3 ERP now has a solution to streamline shipping. Introducing GUMU™ ShipEazy, a shipping add-on built natively into the Sage X3 platform. With GUMU™ ShipEazy, all your critical shipping functions—quoting rates, processing shipments, printing labels, tracking deliveries, cancelling shipments, and address validation—are handled directly within Sage X3 ERP. It supports all leading carriers including FedEx, UPS, USPS, DHL, Canpar, Maersk, Coyote, and Purolator. The result? On-time deliveries, accurate tracking across parcel and freight shipping, and happier, more satisfied customers.

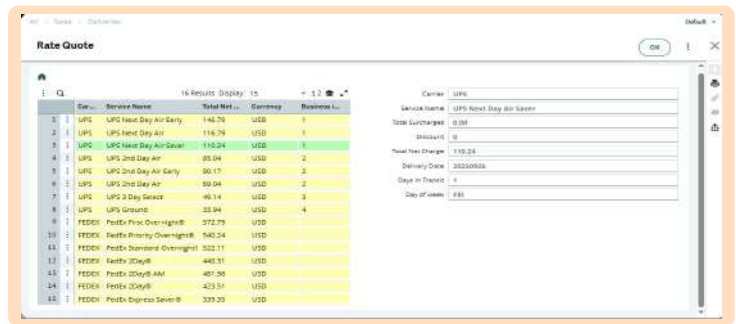

KEY HIGHLIGHTS

Boost flexibility and enjoy faster deliveries with these functionalities

Freight Quoting & Rate Shopping

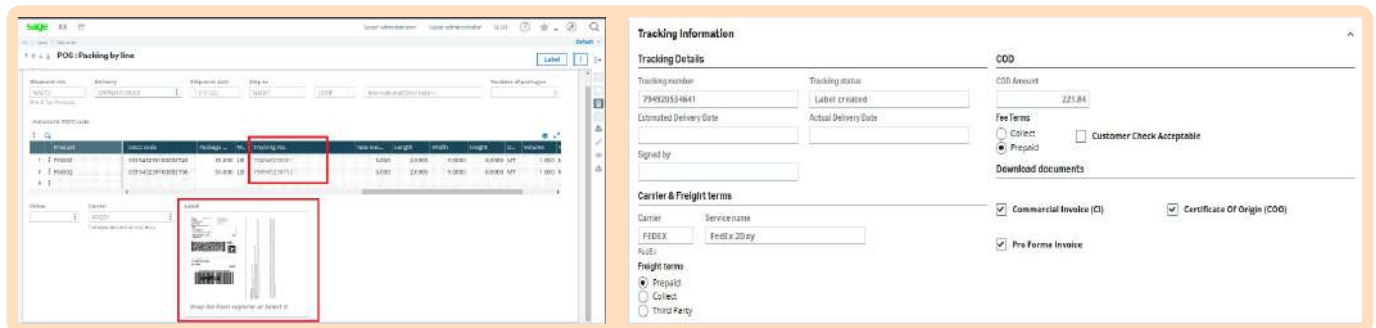

The solution offers a user-friendly interface to verify rate information for packages in the shipment. Compare and determine the best carrier based on the duration, services, and additional costs. You can also convert rates to your preferred currency in case of international shipments.

Process Shipping

Process your shipment by selecting a delivery service from the available list. It will help generate tracking IDs and labels for the respective packages. Freight charges are automatically added, including third-party fees, and prepaid payment terms. A confirmation mail of dispatch is sent to the customer with the tracking ID once the shipment is processed.
